Unfortunately, we had to re-schedule out February luncheon due to weather conditions. However, we are ready for our March luncheon scheduled at the Hamilton on March 27, 2019!

During the last couple of months our Chapter's committees have been working hard putting together a number of training and networking events to continue to engage and serve our members and the federal government community at large. Below is [list of events](#) for the upcoming months:

- Federal Accounting Research Workshop – February 21, 2019
- AGA Multi-Chapter NLT 2019 Happy Hour - February 28, 2019
- Audit Conference on Updates to the New Tax Reform – March 6, 2019
- Wizards vs. Hornets Basketball Game – March 15, 2019
- Audio Conference on Cybersecurity – March 27, 2019

Also, our Education Committee has been working hard planning our [18th Annual DC Chapter Financial Management Training](#). We are putting together our final touches to the [agenda](#) and we have an impressive list of speakers!

This is a great opportunity to hear firsthand from government leaders about the issues impacting Federal financial management and related functions. As is our tradition, we offer ethics training that meets Virginia CPA requirements and can be applied to DC and Maryland requirements. Also, this training provides excellent networking opportunities are offered at the sponsor booths and happy hour reception. CGFM Committee Update - by Wendy Allen

March is CGFM Month!

Not only is March Certified Government Financial Manager (CGFM) month, this year we also celebrate the 25th anniversary of this this widely-respected credential. Over 18,000 professionals have earned their CGFM in the past 25 years. CGFM is the 'must have' certification for **all** financial specialists at the federal, state and local levels.

Join us at the March luncheon to celebrate this certification. Learn how to pursue or maintain your CGFM and know that the AGA DC CGFM committee is always here to support you. Further, the honorable Muriel Bowser, Mayor of the District of Columbia, proclaimed March, 2019 as CGFM Month. The proclamation will be on display at the March luncheon.

Changes to CGFM Examination coming - what you need to know!

To ensure the CGFM examinations' content continues to reflect the current government financial management field, AGA periodically conducts a Job Analysis Study of the role of government financial manager. The latest Job Analysis Study was conducted in 2018 and, as a result, the CGFM examinations will follow the updated content outlines, starting on September 1, 2019. Things to note about this update:

- New editions of the CGFM study guides are expected in Jun 2019. The new content will be in effect September 1.
- Exams administered in September and October will be in the initial (beta period) - offered at discount rate.
- No exams will be administered in November and December.

If you have the current study materials you are strongly encouraged to take the exam before the changes. Have more questions? See this [link](#) for information.

Training Opportunity - Last IRC Before CGFM Exam Update!

Want to sit for the CGFM exams before the update this fall? The CGFM Interview Review Course (IRC), held April 1-2, 2019 in Arlington, Va., is a great opportunity to get it done! You will also receive three free exam vouchers—a savings of \$375! For additional information click [here](#).

The following members have obtained their CGFM since October 2018! You should be very proud of your accomplishment!

Inside The Black Box

by Simcha Kuritzky, CGFM, CPA

Background

The Standard General Ledger (SGL) implemented guidance back in 2010 based on an update to OMB Circular A-11 Section 130 which requires the return of a cash advance that had been collected in a prior year to be recorded as an outlay (i.e., expenditure). **However, the guidance makes some unwritten assumptions and may require some tweaking to work properly in an agency's accounting system.**

Current-Year Posting

The postings in the current year are essentially identical for collecting or returning an advance. The first entry combines all the steps up through signing an agreement, the second entry records collecting the advance.

A702 Anticipate reimbursements + A118 apportion + A706 sign agreement + A122 allot
Debit 422100 Unfilled Customer Orders without Advance
Credit 461000 Allotments - Realized Resources

C182 Collect an advance for an unfilled customer order
Debit 101000 Fund Balance with Treasury
422200 Unfilled Customer Orders with Advance
Credit 231000 Liability for Advances and Prepayment
422100 Unfilled Customer Orders without Advance

When the Fund Symbol expires (at the end of the current year for a single-year TAFS), the agency holding the advance is supposed to return any amount not supported by obligations (i.e., any amount still in 461000 and not in 480100 Undelivered Orders - Obligations, Unpaid). These are returned with the following pre-closing entry:

F110 Record in the performing agency an advance returned
Debit 231000 Liability for Advances and Prepayments
461000 Allotments - Realized Resources
Credit 101000 Fund Balance with Treasury
422200 Unfilled Customer Orders with Advance

An agency's system might require this to be done in two steps: first reduce the advance by posting the opposite of C182 above (i.e., debit 422100 not 461000), then drop the funding authority by reducing the agreement (debit 461000 credit 422100, which is entry F109). After these entries are recorded, any balance in 422200 must be offset by a balance in 480100 (or possibly 480200).

Prior-Year Posting

Instead of adjusting 422200, entry A712 for returns of prior-year collections shows an expenditure as follows:

A712 **Refund of an advance... for the completion of a prior**-year reimbursable order
Debit 231000 Liability for Advances and Prepayments
461000 Allotments - Realized Resources
Credit 101000 Fund Balance with Treasury
490200 Delivered Orders - Obligations, Paid

This entry has the same issue as F110 above, that an agency’s system might require a debit to 422100 instead of 461000, followed by a reduction to the agreement. However, the credit to 490200 causes an imbalance because the agency is returning an advance which sits in account 422200 (and hence is not earned) by recording an expenditure against earned authority. To solve this problem, the SGL Board created a new entry and SGL account in 2010:

B610...Maintain a resource to support the obligation and outlay

Debit 425300 Prior-Year Unfilled Customer Orders with Advance - Refunds Paid

Credit 422200 Unfilled Customer Orders with Advance

Account 425300’s ending balance is reported on the SF133 and Statement of Budgetary Resources wherever 422200’s is, so entry B610 has no direct impact on the financial statements. It does allow the agency to reduce 422200 by posting to 490200, since both 490200 and 425300 close to 420100 Total Actual Resources – Collected at the end of the year (using entries F302 and F314). It may be easier to think of the new model as the same as the F110 entry above plus an extra debit 425300 credit 490200 which offset each other. The 425300 account serves to "earn" the advance, but only to support the 490200 expenditure. Agencies will have to determine whether it is better to update their budgets’ earned and expenditure amounts in their financial system for these journal entries, or interpret 425300 as an expenditure offset account and reduce available funding only by recording the accompanying reduction in the agreement.

These entries are summarized in the following table:

Entry	101000	231000	421000	422100	422200	425300	461000	462000	490200
C182	dr.	cr.		cr.	dr.				
C182 rev	cr.	dr.		dr.	cr.				
F110	cr.	dr.			cr.		dr.		
A712/B610	cr.	dr.			cr.	dr.	dr.		cr.

Missing Pointer

While entry A712 tells the user to also post B610, entry B610 does not mention A712. Since B610 is always posted when A712 is (they are both only for refunds of prior-year collections), it probably would make more sense to add the B610 postings to A712. If someone searches the Transaction Listing for account 425300, they will only find B610 and find no clue how this is supposed to be reported as an expenditure.

Conclusion

Agencies that have reimbursable funding need to ensure their posting model supports expenditure posting for returns of prior-year advances. This support can involve several steps, and each agency should ensure that their procedures include all necessary steps to update both their journals and their agreements and budgets appropriately. They must also decide how these postings will affect budgetary resources, spending, and funds available in their financial system.
