Federal Accounting Standards Advisory Board (FASAB)

October 27, 2017—FASAB issued SFFAS 53, Budget and Accrual Reconciliation

This Statement amends requirements for a reconciliation between budgetary and financial accounting information established by Statement of Federal Financial Accounting Standards (SFFAS) 7, Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting.

To increase informational value and usefulness, and to support the government-wide financial statement reconciling net operating cost to the budget deficit, **this Statement provides for the budget and accrual reconciliation (BAR) to replace the statement of financing** for financial statements issued after September 30, 2018.

The BAR explains the relationship between the entity's net outlays on a budgetary basis and the net cost of operations during the reporting period. The BAR will start with net cost of operations and be adjusted by :

- components of net cost that are not part of net outlays,
- components of net outlays that are not part of net cost, and
- other temporary timing differences, which reflect some special adjustments.
