IN THE NEWS

The IRS has launched a paperless processing initiative, aiming for a fully digital process by the 2025 filing season.

During the 2024 filing season, taxpayers will be able to digitally submit all correspondence, non-tax forms, and responses to notices. Also, 20 additional tax forms will be available to e-file.

The IRS' goal with a fully paperless process is to speed up processing, expedite taxpayer refunds, and more accurately and quickly answer taxpayer questions and resolve issues.
