Lisa J. Hardman, MSI

Senior IT Analyst/Adjunct Faculty, US Government Accountability Office

Lisa is a Senior information Technology and Cybersecurity analyst with the Government Accountability Office. For over 11 years, she has conducted performance audits on various federal executive and legislative branch agencies, specializing in information management, critical infrastructure, risk and requirements management, and data protection and privacy. Ms. Hardman is also a Diversity and Inclusion Champion, and serves her agency as a certified Diversity, Equity, Inclusion, and Accessibility (DEIA) facilitator and member of adjunct faculty, where she has taught over a dozen courses to hundreds of federal employees over the past five years.

Ms. Hardman holds bachelor's degrees from Eastern Michigan University in English and Information Assurance, and holds a Master of Information Science from the University of Michigan-Ann Arbor. She has been acknowledged on several occasions for her work, including individual, team, and agency excellence awards, including being twice recognized as a Diversity Award winner.
