

March 6 | 10 am EST

Transforming Government Operations: A Roadmap for Ethical and Responsible Adoption for AI

SESSION DETAILS:

Summary: This session provides a comprehensive guide for government entities to ethically and responsibly adopt AI technologies, covering key principles and strategies to ensure societal benefits and ethical standards.

CPE: 1 CPE hour

Learning Level: Beginner/Intermediate

Field of Study: Information Technology

LEARNING OBJECTIVES:

In this session, participants will learn to:

- Identify the core principles of ethics, fairness, and transparency when integrating AI in government.
- Navigate the roadmap for responsible AI adoption, ensuring societal benefits while integrating ethical frameworks and managing risks.
- Apply relevant policies, define roles, and establish oversight to effectively govern AI adoption in government entities.

MEET THE SPEAKER:

George P. George
Solutions Architect
REI Systems

George P. George is a solutions architect at REI Systems, bringing a diverse set of competencies to government consulting. As an AI practitioner, he leverages his extensive experience in health data interoperability systems, cloud architectures, and data analytics. He excels in managing diverse international teams to develop IT solutions and drive global sales, transforming operations.

George has attended the Executive Management Program at the MIT Sloan School of Management, served as an advisor on advanced research at the MIT POPI Institute, earned an MBA from the University of North Carolina, co-authored the book "Electronic Communication Technologies for Health Care

Manufacturers," and represented the US FDA at the ICH as the Deputy Topic Leader (DTL) in establishing electronic standards for global drug information exchange.

He is passionate about applying AI and data analytics to improve workflow, decision-making, and operational efficiency, as well as providing on-demand access to trusted, affordable specialty healthcare. George has traveled to over 80 countries, enjoys playing tennis, riding his motorcycle, and experiencing different cultures.

Want to get the most out of George's session? We encourage you to explore his white paper, "[Ethical and Responsible AI Adoption in Government](#)" and [connect with him on LinkedIn](#) to stay up to date with his latest work!
