

ABOUT US

The Central Ohio Association of Government Accountants' (AGA) purpose is to serve professionals in the government financial management community by providing quality education, fostering professional development and certification, and supporting standards and research to advance government accountability.

For over 50 years, the Central Ohio AGA has addressed issues and challenges facing accountability professionals from local, state and federal governments, as well as private sector organizations. Currently, our range of affordable and convenient professional education opportunities, our well-respected certification program, and our website and quarterly newsletters keep members in touch with the latest developments, making Central Ohio AGA the go-to source for government accountability.

Our educational events, ranging from 1 to 8 hours in length, are held periodically throughout the year (average 40 attendees). Our two-day Central Ohio Professional Development Training (PDT) is held in October and is our largest educational event of the year. The PDT attracts leaders from federal, state and local governments, as well as the private sector, who are committed to making government more accountable to the people they serve. Offering Continuing Professional Education (CPE) hours, technical training, emerging trend snapshots and lessons learned from the best in the business, the PDT is considered a "must" in many financial managers' training plans.

Our educational events and PDT provide you with prime opportunities to network with existing clients and bring your name to the attention of leading government executives and decision-makers. Our sponsor benefits enhance and strengthen your name recognition and bring you closer to the prospects you most want to reach.
