JA Finance Park is a public/private nonprofit collaboration between our region's school systems, businesses, educators and volunteer mentors who come together to inspire, guide and teach students how to be financially capable and ready to take on their futures. From goal-setting to saving, budgeting, shopping and bill paying, students experience what it really takes to successfully navigate today's complex economy and they come face-to-face with how their decisions today can impact their future.

JA Finance Park volunteers help guide small groups of middle-school students through a personal budgeting simulation – helping them understand their assigned family scenario and the budgeting process, and encouraging students as they then purchase items to meet the needs of their family, such as insurance, clothing, transportation, housing, groceries, and childcare—without spending more than they earn.

Volunteers make an impact by sharing their real-world experiences and by guiding small groups of students through the budgeting simulation. Are you ready to make an impact?

Open to friends and colleagues as well!
